WGR-1117

16 February 1951

Chief of Station, Karlsruhe

Chief, FDM

Attn: FOD

Operational

Project Approval for CAMISE

1. CAMISE Project is approved for the period 1 January through 30 June 1951, and the sums of \$150 and 300 DM as operating expenses have been allocated for this period.

2. In the very penetrating analysis of control in this operation, you note, in paragraph 7 of the Field Project Outline, that the control elements in CAMISE's false identity and wartime record "can be considered all probably within a year." This is the same time estimate made in the previous Field Project Outline, dated 12 June 1950 and written by []. We trust her motivation and our control are holding up better than these predictions might lead us to believe.

3. Under item 12, Special Problems and Commitments, no mention is made of disposal plans for CAMISE in case Germany is over-run. Her assumed name would not, we think, be any protection, because she is in as much danger as an SPD news hawk as she is as our agent. Her long relationship with us and her many contacts with our case officers make it undesirable to expose her to the possibility of unfriendly interrogation. Some thought should be given to this problem.

4. You might note in your files, for future inclusion under item 4b of the Field Project Outline, that PRC data on CAMISE was sent in in MOFI-4088 and 4099.
